

On The Buses

South East Coachworks Newsletter

Latest news on Conversions, Upholstery Restorations & Graphics

Typical!
You wait for a Sightseeing bus to come along...

We have done many Golden Tours conversions in our time and we're going to be popping some more out very soon!

The three buses are now in our workshop and conversions are well under way. These ex public service buses will be completely transformed into the famous tour buses used for sightseeing in and around the nation's capital.

Impressive Apprentice

We're very proud to introduce our new apprentice, local Faversham lad Bradley Rogers, 17. He secured the position just before Christmas and enrolled on the 6th of January. He is working under the watchful eye of former apprentice himself, Tom Coe, his mentor. Tom will be working alongside Bradley throughout his apprenticeship and teaching him all the skills he requires to become a competent coachbuilder. Bradley tells us he is really enjoying learning new skills and we think he's doing a brilliant job too!

This Leopard has its spots back

One of our past clients, Paul Llewellyn owner of PCD 80R referred us to John Wilcox almost a year ago for a simple floor replacement on his Leyland Leopard. 10 months later and many good English pounds spent, we would like to thank John for his business, patience and support with our apprentices whilst completing this stunning refurbishment. We look forward to seeing the bus at shows and exhibitions this year.
