## Buses for Budding Book Worms

When Drew Primary School, based in Newham, South London was in need of extra teaching capacity, a space for pupils to read quietly and also store books they approached South East Coachworks. A few short months later & they now have this converted double decker bus which will be parked in the playground and will remain static. The exterior boasts a retractable awning plus bright & lively graphics by SEC Signworks. Another library bus conversion will be delivered & set up in the next week, this time for Britannia Primary School, so please watch this space!

## Fuse Festival Frenzy

The Kent Cultural Baton airstream trailer was converted by South East Coachworks some 5 years ago & since that time it has been greatly successful and is still operated by SEC. Our driver, Richard has been getting it to venues all over the Medway towns as part of the 'One Days Works, Fuse Festival 2014'. The Festival is a showcase for Medway based artists, performances, installations and workshops inside the Kent Cultural Baton.

## Bid for a Bar Bus

The Big Red Bar Bus, owned by Town & Country Catering Ltd., converted & operated by South East Coachworks attends a variety of fairs, festivals and shows throughout the year, providing the great British public with traditional Shepherd Neame brews. The bus attended Folkestone Air Show on the 7th & 8th June and proved to be a major success.
