XLP MK 2

Having successfully delivered XLP1 our client needed another youth bus to operate in and around London.

The bus is equipped with laptops and Internet to provide a homework space for those with no IT access at home as well as games consoles, arts & crafts materials & an area to sit and chat. Travelling to numerous estates each week, the double-decker buses provide hundreds of children and young people with a safe place to engage in positive activities and learn outside of school hours. On each estate the project is run by experienced staff who serve as great role-models to the young people.

XLP understands the importance of consistency in the lives of young people, and so invests in communities for the long-haul, with a strong emphasis on building relationships with young people & families. South East Coachworks is proud to be associated with this very worthwhile youth organisation.

How Unusual

Have we ever been asked to build a Routemaster bus and place it in the third floor of a London office? Of course we have. RM 2218 is proudly situated on the third floor of a well know search engine company. The bus was constructed from scratch from patterns and copying other buses. Assembled in our workshops and dismantled to be installed in London. Complete with cab, conductor's compartment and staircase, this unique meeting room is what greets you when you step out of the elevator.

New Trim & Upholstery

SEC continues to offer trim and upholstery to things other than buses. Gore Court Cricket Club contacted us via our membership with The Association of Master Upholsterers and Soft Furnishers to replace all of the clubs bar stool tops. The material was easily selected from our vast stock range and the job done.

Seaford Bus Restoration

Leyland National PCD80R will be coming to our workshops. Paul Llewellyn has expressed how impressed he is with SEC and the reputation we have in the market. Photos of this long term project will follow in next months newsletter.

We have successfully refurbished an open top Bristol VR HKE 690L for David Mulpeter of Seaford and District Bus service, who took advantage of our full service, from floors, seat re-trim, paint and branding. All with in budget and timescale.

Welcome Break Rebranding

Routemaster Bus JJD 498 D supplied & converted by us over four years ago, returns for a full vehicle wrap. Welcome Break is supporting Children in Need, so rebranding was needed.

The exterior branding design was passed to our signage division who meticulously supplied and fitted the wrap. The bus is now currently touring the UK, so keep an eye out for Pudsey Bear and support Children in Need.
